

Affordances:

- Metallic
 - Hard
 - Whatever the object is used for, It has to be rigid enough
- Sharp edge
 - Used to cut things
- Concave hook
 - Like a bottle opener, hook out stuff from unreachable or difficult places
- Hole
 - Possibly for a keychain, portability
- Hinge, collapsable blade
 - Portability
 -

Possible uses:

- Sewing
 - Knife to cut yarn. string
 - Hook to untangle, or unhook wrong stitches
 - This explains the portability, sewing is done everywhere
- Bottle opening?
 - Knife to cut the seal
 - Bottle opener thing for the cap (it is a bit small to be a bottle opener though)
- wire cutter/fishing line cutter
- paper cutter
 - Blade to accurately cut paper
 - Like exacto knife
- Can opener
 - knife to open lid
 - Hook to lift the lid, body is slanted maybe to allow users hook the lid
 - However, can openers do not need to be portable
